

## *To the Administrators!*

During these tough budgetary times, school systems all across Texas are struggling to meet greater demands placed upon them with less money. We'd like to invite you to take advantage of a special offer from Dinah Zike, inventor of Foldables® and Visual Kinesthetic Vocabulary®: interactive, brain-compatible, three-dimensional graphic organizers and learning tools.

This summer, we worked with some 400 teachers by offering complimentary three-hour workshops covering a variety of topics for integrating Foldables® in the classroom. The response was overwhelming! Teachers from districts across Texas left the Dinah Zike Academy rejuvenated and inspired with strategies and vast amounts of information. Here's what a principal who recently attended a Three-Day Institute here at the Academy had to say: *"The experience at the Academy was awesome...and we are keeping a faculty notebook implementing foldables for the coming school year. It is my hope that they will learn the varied concepts and see the relevance and use in their classroom. The staff is saying great things! I feel like a teacher again... Thank you for making the first day this year the best of my 22 years in education!"*

**Today, we extend an offer exclusive to school administrators, principals, curriculum development directors, curriculum specialists without classroom assignment and department chairs.** Our directors will hold complimentary three-hour workshops especially for you here at the Dinah Zike Academy (visit [www.dzacademy.com](http://www.dzacademy.com) for directions) located in Comfort -- a short, 35 mile trip from San Antonio— which will give you the opportunity to see the power of graphic organizers firsthand. Foldables® allow for natural differentiation and can be utilized effectively in all subject areas at every grade level. Allow us the opportunity to show you how to integrate key components of administrative concern such as ELPS, TEKS and test prep into routine classroom activities through Dinah's strategies.
